The most feasable scheme is the organization of some kind of co-operative company.

IMPOSTORS.

The BEE has in view a man, who 18 now connected with a scheme and who has more or less been a failure and a load to every enterprise he bas been in. He adopts the easiest methods to fleece the people without doing any work.

The people should be careful and not put their money in enterprises that are composed of men of questionable reputations and who will nold on to a dollar like death holds on to a consumptive.

Money is what the people want and such enterprises as will bring them money.

Some of our public men have been imposed upon by these political impostors, and adroitly have these men worked the race racket that it has enabled them to rob ment under Hon. C. H. J. Taylor, reg. the people out of a large sum ofmoney.

The people are confronted with 1st. a great enterprise, with a cap ital stock of 100000 (?) dollars on paper only.

2nd. This capital stock is divided into shares of ten dollars each. 3rd. A number of shares are sold and the money goes to pay the officers of the concern.

The people are told that no money can be paid or contracts entered into without the consent of an alleged board of directors.

The board of directors never meet, and if it does it is composed know that he has a vote.

Washington, at this time, is full of just such enterprises. Let the people be aware and

have a watchful care of their surroundings. Legitimate enterprises are not

supported, and honest men who make an effort to advance and pro mote the interest of the people are very seldom supported.

It is the trickster who is encouraged and advanced; it is the montebank and crap shooter who are nursed and protected; it is the thief and libertine who are asked to your house and introduced to your family; it is the drunkard who receives our pity; but, the gentleman we have no respect for. We tell him that he is behind the age and our daughters should marry men who have the stamp of corruption in their foreheads.

Let the people learn some sense and discard these demons of humanity.

TAKE THE BEAM OUT OF YOUR OWN EYE.

The average Negro editor thinks the right road to fame is to attack some other editor's choracter. We think the most despicable man on earth is the one who takes a liberal allowance of slop and bespatters his brother's character with it. The average Negro editor seldom makes an attempt at argument. If he does make an attempt, we should like very much to shake the hand of the man who can prove it. If the average Negro editor does not call his brother quilidriver a "licentious reprobate," or something of the sort, before he has written ten lines of an 'argument" it is because the hand with which he writes has become paralized on the ninth line.

To the editors who take great de-light in fighting each other, keep out of the mud lest your feet get stuck in the miry clay. Leavenworth Herald.

The editor of our esteemed con temproy should practice what he preaches. In a recent issue he saw fit to attack a defenseless woman, Miss Wells who is now in England lecturing for the betterment of the race and in a previous issue had the audacity to write the above. "Take the beam out of your own eye, etc.

Our genial friend Arthur St. A. Smith has written a letter to Mr. A COLORED DEMOCRAT WANTS HIM TO Upshaw calling him to time for deriliction of his political promises.

There are a number of candi dates for the trusteeship of our public schools. There are two vacan cies in the persons of Dr. Shadd and Mr. Cornish.

CALLING GEN. UPSHAW TO ACCOUNT.

FULFIL ALLEGED CAMP AIGN PLEDGES.

From The Sunday Post.

Arthur St A. Smith, a bright, young It will be remembered that Arthur colored Democrat of this city, who is secretary of the National Negro Independent Political Union and a member of the Negro Domocratic League, does and this sudden change of front is not think that his people are receiving not surprising as it is cheeky. It is just treatment at the hands of the administration. Although he is a high protectionist and a free-slaverite, he feels sure of intrusting the solution of such problems to the Democratic party, provided the loyalty of colored Demo crats receives fitting recognition.

He has addressed the following let

ter to Gen. A. B. Upshaw, who formed the Negro Democratic League: ashington, D. C. June 29, 1894 Gen. A. B. Upshaw,

Normandie Hotel, City.

In the campaign of 1892, made, the colored voter, like the white voter, began to discuss the merits of respective nominees and to make up his mind as to which of them it would be to the best interest of the country at large, the colored race in general, and himself in particular to support for the exalted position of President of the Inited States. Many remembered Mr. Cleveland

kindly on account of his friendly attitude toward the colored people as a class, and also because of his position in favor of the colored office-seeker during his previous administration. Many were disappointed and disgust-

ed with Mr. Harrison and hated the Republican hypocrisy which professed one

thing and acted another. Many did not recognize the real necessity for a change in the adminisira tion of the government and were indifferent to the great opportunity to make friends with the Democratic party. That party was then promising to prevent the slaughtering of negroes at the South and also pledging to give the colored voter who supported the Democratic ticket fair recognition in the distribution of government patronage About that time, Gen. Upshaw, you

appeared as the recognized manager of the negro vote for the Democrats, and organized the three classes of negro voters above mentioned. With your superior generalship to perfect our organization and to show us how to offec tively wield our individual influence we became a powerful auxilary to the Democratic party, and marched shoulder to shoulder with it to victory. voted many thousand Democratic tickets, and you promised to us that we should share in the rewards of conquest You led us into battle, and we depend upon you to lead us up to the commis sary department. You were the mouth piece of Democracy, and also of the national committee. It was through you they spoke to the negroes and made so many promises during the campaign. who is going to redeem those piedges of the Democaatic party, we want to know? We look to you to call upon the President, the Cabinet, and the rest of this Democratic administration, and remind them that one third of their lease of power is gone, and that it has been over a year since the Democratic party got control of the government and the distribution of Irishman, the Frenchman, the Italian, and even the Chinaman, I am toldyet comparatively nothing done for the negro. Why is this thus? Do not our white Democratic broth eren desire us to make more perfec our organization and maintain its autonomy so that next fall we shall be ready when the bugle calls Democrats to arms to fall in and help to win another victory? Or do they desire you to disband your army of negro Democrats and allow them to turn to their first love? It seems to me that from the condition of the country and the behavior of the Democratic gress the administration needs to en courage all the workers it has in sym pathy with it and try to enlist more.

Hoping I may hear something en uraging from you to my colored Democratic brethren, I am ARTHUR ST. SMITH,

440 Massachusetts avenue, northwest.

Over 250 Victims of the Pont-y-Pridd Mine Disaster

London, June 25.-Further exploration of the Pont-y-Pridd mine, in which an explosion occurred Saturday, has shown that the disaster was far be yond anything imagined at first. The number of dead is 251. The original report that only two hundred men were in the mine was due to a misunderstanding on the part of the manager, who thought that a shift of miners had just come up. Many of the dead bodies were mangled beyond recognition. Crowds of women. who have not slept since the explosion, still surround the pit, awaiting news from husbands and brothers. Exploration of the mine is slow and difficult, owing to the blocking of the galleries with wreckage and dead horses.

Drowned While Tachting. Brooklyn, N. Y., June 25.—Five persons were drowned yesterday in the East/River about 400 feet from the Atlantic Yacht Club at the foot Fifty-sixth street, Brooklyn. The drowned people, who are at present unknown, were two men, one light, the other dark; two women and a child. Another child, a girl about two years old, was rescued. They were all evidently Swedes or Germans. They were in a cat boat and were struck by a squall that arose about 10:30 o'clock.

The Outrage of Gen. Tarsney.

Denver, June 25.—A mass meeting of about 50,000 persons was held in Lincoln Park yesterday to condemn the outrage perpetrated upon Adjt-Gen. Tarsney in Colorado Springs. Speeches were made by L.N. Stevens,

THE REMAINS OF PRESIDENT CAR-NOT LAID IN THE PANTHEON.

All France Shows its Sorrow and Pays the Last Tribute of Respect to its Illustrious Dead - Imposing Services d a Grand Pageant

Paris, July 2.-Amidst the intense heat of the sun pouring from a cloudless sky, all Paris and thousands of people from the provinces and from the various countries of the continent witnessed one of the most imposing spectacles the pageant-loving Republic of France has ever seen in the burial of President Carnot. Most of the publie buildings were heavily draped, and the front of the Pantheon was entirely covered with black cloth bordered with white. The Cathedral of Notre Dame was also draped, though not so pro fusely. The Paris Bourbon was pro-fusely draped with crape and tri-colored flags at half-mast protruded from many of the windows. Hundreds of draped American flags hung in front of the American shops, and the Stars and Stripes were also conspicuously displayed in front of American resi-

delegations began marching to the Elysee Palace, bearing wreaths and other emblems of mourning. . Over the catafalque, which stood in the centre of the court yard, was spread a black band with two large white letters "C. and a black canopy trimmed with silver covered the coffin. The catafalque was surrounded with burial palms and flowers and countless wreaths catafalque was guarded by soldiers. and four nuns were kneeling behind it The band of the Republican Guards played Glazier's "Carnot Funeral March," and in the court yard the curate of the Madeleine Church said the customary prayers. . As the bear ers lifted the coffin to their shoulders the first gun boomed on the Esplande Des Invalides, and continued at inter vals of two minutes until 101 salvos were fired. The hearse was flanked by a guard of honor and was drawn by six splendidly caparisoned horses. The coffin was hidden beneath the folds of silk tri-colored flags, grouped front and back. M. Carnot's servants in livery came next, with the dead President's family, his three sons walking in the first line and his brother Adolphe Carnot, and his cousins and son-in-law behind. Madame Carnot was not present, being completely protrated by the excitement of the past week. Behind the family of M. Carnot came President Casimir-Perier. As the procession moved up the aisle of the Cathedral of Notre Dame the tolling of the bell was gradually lost to hearing amidst the pealing of the or gan. While the strains of the funeral march were filling every corner of the great building the line of mourners walked slowly by the crape-covered pulpit. There M. Casimir-Perier, as Chief of State, had an isolated seat Madame Carnot drove alone from the palace to the cathedral, where she re mained throughout the service. After the short sermon the Archbishop of Paris gave absolution. then took the coffin and bore it down the aisle, the clergy accompanying it to the door. All the bells in the city were tolling as the procession formed again and moved on to the Pantheon. The coffin was placed temporarily in the crypt between the bodies of Rosseau and Victor Hugo. Later it will be placed in the vault beside the Gen. azare Carnot, the organizer of vic

THE BERLIN SCANDAL.

It is Now the Absorbing Topic in the German Capital. Berlin, July 2.-The scandal caused by the arrest of the Royal Chamber lin, L. von Kotze, and the rumors of his anonymous correspondence with high persons at court, has grown to such dimensions and has so excited the public curiosity that the Emperor may be forced to convert the secre inquiry into an open trial. The details of the charges against Von Kotze were known at first only to members of the inner court circle. They have gradually leaked out, however, as the scan-dal became the absorbing topic in society and the clubs, and now is the one theme in every public resort.

Lovers United in Death.

London, Ont., July 2.—The dead body of Henry Herbert Thomson, a young Scotchman, was found in the river short distance below the city. He had been riding in a canoe and his arms, when it was found, were entwined around the seat of the boat Thom son was engaged to marry Miss Bella McKechnie. When Miss McKechnie learned of her lover's death she immediately swallowed three ounces of hydrocianic acid and died in a few moments.

An Editor Gets Carnot's Fate. Rome, July 2.-Giuseppe Bandi, editor and proprietor of the Gazette ornese, was stabbed with a pointrd in Leghorn while riding to his office in carriage. He died in a few hours! The assassin escaped. Bandi had opposed the Anarchists with great vigor. and had strongly denounced the assas-sination of President Carnot.

Drowned at Mechanicville. Mechanicville, July 2.-William Mc-Donald, of Cohoes, aged twenty-one, a machinist employed at the Filberite mills, was drowned in the Champlain Canal yesterday. He was unmarried. Coleridge's Successor.

London, July 2. — The official announcement is made that Lord Russell-

Killowen, better known as Sir Charles Russell, has been appointed Lord Chief Justice in succession to the late Baron Distinguished Arrival. New York, July 2.-Among the pas-

Philadelphia, July 2.—Lewis H. Weiss, aged twenty-eight, a negro, ran amuck vesterday in Germantown with a revolver, and shot two persons and was himself shot four times by a policeman.

MARINE DISASTETS.

the Steamer Virginia Lake Breaks Her Wheel Chains and Narrowly Escapes.

St. John's, N. F., June 29.-The mail teamer Virginia Lake, with seventy passengers, had a narrow escape from oming a total wreck while coming along the coast in a heavy gale. The vessel was coming through the tor tuous passage between the group of rocks called the Biscayan Islands and the mainland, twenty miles north of here, when the wheel chains parted. The ship was going twelve knots an The engines were reversed and the ship stopped within twenty feet of the rocks. Had she struck she would have gone down quickly and very few people would have escaped. The Virginia Lake reports that she saw hundreds of icebergs, several of them over a mile long.

BERLIN SCANDAL.

The Laltest Rumors Concerning Those Letters.

London, June 29.-The Berlin corre spondent of the News says of the scandal concerning the slanderous letters supposed to have been written by L. von Kotze: "It is rumored that the Prince of Stolberg-Wernigerode, Grand Chamberlain, tried to dissuade the Emperor from arresting Herr von Kotze, and has since resigned his office. The Emperor accepted his resignation, only asking him to remain in office until his successor shall be appointed. There is so little doubt of Kotze's innocence that his release has been decided on, and he remains in custody only at his own request."

ATTEMPTED MURDER.

The Little Falls Chief of Police Attacke

Little Falls, N. Y., June 29.-An attempt was made on the life of Chief of Police Bower, of Ilion. He was making his rounds, when he heard a noise in the rear of H. A. House's furniture store. He started in to investigate, and was caught by a man Another man then appeared, and with the words, "D-you, you have been following us all night," fired at the Chief. The ball struck him in the shoulder and a second shot struck him in the hand. Mr. Bower then ran for help, and the men escaped in the darkness. It is supposed that they were burglars. Police are on the look out for the men.

The American Railway Union Have Taken Active Measures-Passengers and Officials Now Do the Work Formerly Done by Train Hands.

Chicago, June 27. - The boycott of the American Railway Union against the Pullman Company was put into force, and almost precipitated a riot. The Illinois Central switchmen struck. Traffic was completely tied up for several hours; then the railroad officials took the places of the strikers and succeeded in getting out two through trains. But at Grand crossing they were stopped, and the Pullman cars

were side-tracked. It was announced at noon by the American Railway Union that the strike ordered on the Great Western, the Northern Pacific, the Wisconsin Central and Baltimore and Ohio had come effective.

The only sign of the strike this morning is in the Illinois Central yards. The suburban trains are running few and far between, and then only when some passengers have courage enough to turn the switches. None of the other roads have been molested as yet. It is probable that there will he a general strike on the Illionis Central, as employees are holding a meet

The police have just been sent to the Grand Central Depot to protect the Great Western trains, as it is understood this will be the next road which the strikers will attempt to bring under their control. Windows were broken on one Pullman car atached to the Illinois Central this norning as it was coming into the city. There were no passengers in the berth. The colored union railway men an-nounced this morning that they would offer to fill the places of all the strikers with experienced colored railroad

The Illinois Central has issued a notice that it would not accept any freight. The road is practically tied

ALAS THE COXEYITES.

the Commissary is Low and No Helping Hand Extended.

Washington, June 27.-The original Coxey army is not anxious to extend a fraternal hand to other tramp bands. The commissary is so low that their own meals are now few and far between. Browne turned Frye's followers out. Frye has joined Galvin, who is no better off. No interest is taken in them, and contributions have about ceased.

ISLAMISM.

The Sultan Checking the Advance of Christian Powers. London, June 27.-The Standard this morning says that the Sultan of Tur- Staten Island. key is sending, at his own expense, missionaries to spread Islamism in Africa, with a view of checking the

advance of Christian powers. Cholera in Belgium. Washington, June 27.-A cablegram received at the Marine Hospital from Dr. Fairfax Irwin announces a serious outbreak of cholera in Belgium. There are fifty-four cases at Jemappes, and the disease has appeared at Liege, Seraing, St. Nicholas and Montaigu. The epidemic is widely scattered.

Mrs. McKune Belevies Rogers Got Money From Her Estate.

New York, June 30.-Suit has been brought in the Superior Court by Mrs. Anme A. McKune against John H. Rogers, who was at one time a trustee of the Broadway Savings Bank and President of the Mechanics and Builders' Exchange, for an accounting estate, valued at \$100,000, left to her by her father, James Stephens, who died in 1876. Mrs. McKune claims that Rogers, who is a brother-in-law of Mrs. McKune and trustee of her estate, has refused to give her a statement. He claimed that he had had notes for \$6,000, made by Mrs. McKune's husband, that were due the Stephens estate. He said these would have to be paid. She alleges that Rogers deducted \$3,000 from her allowance. She then learned that the notes spoken of were seventeen years old and bore all the evidence of having been paid when due. This fact has led Mrs. McKune to believe that Rogers has used money belonging to the estate for his own use. She has been unable to get any money from him lately. Rogers is not at present in New York, and she does not know where he is. Rogers has been much interested in spiritualism.
